

SWISS ENTO FOOD

Edible insects – with simultaneous translation German-English-German

Thursday, 31 August 2017

Swiss congress

Swiss Ento Food

Swiss Ento Food, the Swiss congress on edible insects, provides a unique opportunity to become familiar with the new and exciting edible insect scene. The event will close with a panel discussion in which participants will be able to take an active part by submitting their questions to recognised experts.

Simultaneous translation will be provided for all talks.

There will also be an exciting exhibition in which companies and workgroups will present the latest products and a wide range of interesting information. Participants will have the opportunity to explore this in the breaks, at lunchtime and at the end of the congress.

Organization of the congress ZHAW, Institute of Natural Resource Sciences, Phytomedicine Research Group
